

East West University
Department of Computer Science and Engineering
Spring'26, Final Exam

Course: CSE200 – Computer Aided Engineering Drawing, Section-5
Instructor: Tahsin Tariq Banna, Lecturer, Department of CSE
Full Marks: 30 (30 will be counted towards final grading)
Duration: 90 minutes

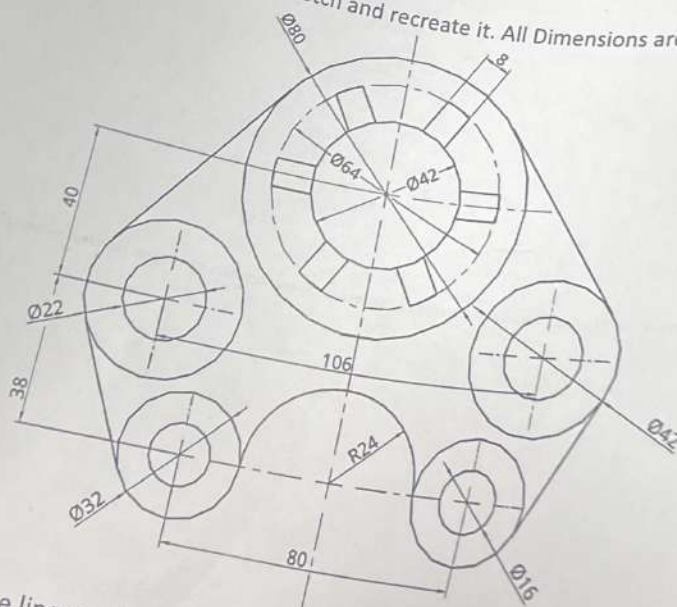

1. Construct the following isometric part and its multiview projections along with the sectional view (A-A). All Dimensions are in mm. 15

2. Construct the part shown in the drawing below. The wall thickness of the part is 5mm and all of the steps have similar dimensions. Dimensions are in mm. 5

3. Examine the following sketch and recreate it. All Dimensions are in mm. 10

- All of the lines and circles that are touching are tangent to each other.
- The right and left half of the sketch mirror each other.
